Rename Screenshots

Alfred workflow based on a Python script that automatically renames the Screenshots situated on the Desktop.

/Users/anthony/Library/Application Support/Alfred 3/Alfred.preferences/workflows/user.workflow.57FC9D7A-4F11-4947-AFE3-C20C29A913BF

The Alfred interface shows a workflow titled "Rename Screenshots" with a keyword "ren". The status bar at the bottom displays the file path: "/Users/anthony/Library/Application Support/Alfred 3/Alfred.preferences/workflows/user.workflow.57FC9D7A-4F11-4947-AFE3-C20C29A913BF". A red arrow points from the workflow name in the title bar to the file path in the status bar.

File browser view showing the contents of the workflow directory:

Name	Date Modified
icon.png	Today at 14:31
info.plist	Today at 14:51
rename_screenshots.py	Today at 14:49
workflow	Today at 14:40
